Sunday Morning 1<sup>st</sup> Nov 1795

Dear Sir

I thank you for the favor of the *Sanctus* Donat, which you have had the goodness to send me.

If Genl. Vetchney has gone more into detail, than is found in the expression of your letter relative to the establishment at Fort Johnson, I should be glad to receive an extract thereof; otherwise the transcript would be unnecessary. It is to be observed however, that the strength of our garrisons must be proportioned to the means from whence they are drawn.

I cannot, in this moment of your departure, but express my regret that it was not accordant with your wishes to remain in the Directorship of the Mint. Permit me to add, that your conduct therein, gave entire satisfaction; - and so wish you a pleasant voyage, and a happy meeting with your friends in S<sup>c</sup> Carolina - being with great esteem Dear Sir - Your Obedient Serv

G. Washington

To

Henry W. De Saussure Esq.  
Philadelphia

South Carolina  
City of Charleston

I do hereby certify that the foregoing is a true copy of the original letter, now in my possession, from President Genl. Washington to my father the late Chancellor Henry W. De Saussure

Dec<sup>r</sup> 10. 1850

H. A. De Saussure

John & William & Charlotte his wife  
to the State, Aug 2 36. 50 by 99 — 50.10  
But in the 18th July 1792 and the 18th  
17 but 50.10  
and had but and by 17th July 1792  
1792 — 1792 10th July 1792  
for and in the 18th — 21. 1792  
landed then from 2nd July 1792  
1792 by 17th July 1792 or later they  
in the 18th July 1792 —  
1792 by 17th July 1792 to the 18th  
1792 1792 1792 — 1792 1792  
1792 1792 1792 —

By the latest date of 1730 <sup>handwritten</sup> 8 1/2 doubloons  
Sovereigns - of doubloons 46 divisions - 24 common  
doubloons in pieces - or 18 common are to weigh in  
Catholics. More of 22 real. fine - and 8 1/2 per 1000  
or 1000, of half doll. 24 pieces or 18 water of 1000  
near plate of 11 Mirrors are to weigh in Spain  
Mark -

But in 1792 gold was reduced to 21 1/2 Carats  
and the silver to 10 3/4 divisions, except the  
pieces and real, which were reduced to 9 3/4  
divisions - no alterations since in silver but in  
1788 gold was reduced to 21 for doubloons and  
their divisions and 20 3/4 for the Coronado  
or Vintena de Oro.

The assay in W<sup>t</sup> for gold silver is 24 pieces  
for Mark - the assay in alloy for gold is 76 of  
silver & 1 piece or 1/26 of a division for the silver  
and its divisions.

Puddlebury 25<sup>th</sup> Feb 1793

Sir

A long confinement by a Fit of the Gout  
has detained me in Dorsetshire, and prevented me from  
waiting on you myself to answer the Enquiries  
which you have deemed it necessary to make respect-  
ing my Relation, relative to a late Transaction  
in which I prosecuted him in America from the  
Enquiries that I have made I find no Circumstances  
which has at all impeached his Integrity: it appears  
that his losses have arisen principally from an  
unfortunate connexion formed in Business with a  
Man in America. I have no doubt with respect

his abilities, but that you will find him fully  
equal to the Office for which you intend him, and  
that his Conduct will give you that satisfaction, with  
the sincere Wish of Sir

Your very obed<sup>t</sup> servant

(Signed) — W<sup>m</sup> Allen Secy.

Memorandum of Agreement

entered into between Thomas Pinckney, Minister  
Plenipotentiary of the United States of America  
at the Court of Great Britain and Albion Fox  
of London.

Whereas Thomas Pinckney has by promise and  
agrees that the said Albion Fox shall be appointed  
Speaker of the House of the United States of America  
and shall enjoy all the Rights Privileges and  
Emoluments annexed to the said Office by virtue  
of the Acts of the Congress of the said United States  
his Appointment to be dated from the time of his  
leaving London on his way to America and to  
continue for three years. And the said Albion  
Fox has by promise and agrees that he will  
faithfully discharge and perform all the Duties  
specified in the said Acts as Speaker and in  
general all the Duties usually performed by  
that Officer and that he will follow such Direct-  
ions as he may from time to time receive in  
order of the President of the United States or the  
Director of the Mint and give such Security for  
the due performance of the Duties of his Office  
as is by Law required and that he will  
concur in the best and Business of his power

Extract of a letter from Mr. Pinckney  
to the Secy of State dated London 12<sup>th</sup> Decr 1793

Mr. Albion Cox having been recommended to me to fill  
the office of apayer of his Mint I made all the requisite  
inquiries concerning his abilities and Integrity and rec<sup>d</sup> satisfactor  
the account of both. &c. You will observe a clause in our  
agreement stipulating that it shall be void if not approved  
by the President. I enclose a copy of his receipt for the  
money furnished him in part of salary and for articles  
bought. He had been employed some time in procuring these  
articles and conceived his salary should commence from  
the time in which he was so engaged. Though I saw the  
reason of the proposal, yet being limited by my instructions  
I told him all I could do would be to state the matter  
to you.

The Secretary of State has the honor to enclose  
to the Director of the Mints some observations  
respecting Copper, received from Mr. Pinckney by  
the last vessel from London. Should Mr. Clinton  
have any thing to communicate on the  
subject, the Secretary will be happy to receive  
and transmit the same to Mr. Pinckney.

of the Mint

This observation will also apply to the claims for the most common  
 mineral, for it being only that sort of mineral which answers for it in the  
 whole, but as well as for the whole.

\* This observation will also apply to the clearing the market when  
grain is plentiful, only that it is not so much to be feared for it in this  
state as it is in some others.

with the other things which are to be done  
in the state of things. It is to be  
remembered that the clearing the market  
is not to be done in a hasty manner  
but in a steady manner. It is to be  
done in a manner which will be  
beneficial to the state. It is to be  
done in a manner which will be  
beneficial to the people. It is to be  
done in a manner which will be  
beneficial to the country. It is to be  
done in a manner which will be  
beneficial to the world.

of the stone with the other which is the same as the rest of the stone  
is a separate piece of the same stone as the whole  
is made of.

1. The above is a list of the names of the persons who have been  
admitted to the Society since the last meeting. The names are  
written in the order in which they were admitted.

Know all men by these presents that We Jacob Sharpe  
& Jacob Sharpe Junr of the Town of Brooklyn in Kings  
County State of New York Esquires & Leisegang Sharpe  
of the same place are held & lawfully bound unto  
Henry Wright of the City of Philadelphia Esq Chief  
Justice of the Court of the United States in the face of  
Nine Thousand Dollars to be paid to the said Henry  
Wright on his return Attorney his Heirs Executors  
Administrators or Assigns for which Payment well  
and truly to be paid we bind ourselves and those  
Executors Administrators jointly by these presents  
sealed with our seals this sixth day of September  
in the Year of our Lord one thousand seven hun-  
dred & Ninety four

The Condition of this Obligation  
is such that if the above bounden Leisegang Sharpe  
shall faithfully and Diligently perform the Duties  
of his Office as Clerk in the Court of the United States  
then Obligation to be Void and of no Effect otherwise  
to remain in full force & Virtue

Sealed & Delivered  
in the Presence of } Jacob Sharpe  
Witness Bernard Ward }  
Peter Sharpe }  
J. W. Wright Esq.

Leisegang Sharpe

An Estimate of the probable Expenses of the  
Mint of the United States for the ensuing Year  
commencing the first day of October 1794. —

*Salaries of the Officers & Clerks of the Mint.*

David Williamson Director	2000	
Nicholas Brey Treasurer	1200	
Alvin Cox Paymaster	1500	
Henry Pezle Chief Coiner	1500	
Refiner	1200	
Robert Scott Engraver	1200	
Four Clerks at 500 Dollars per Ann. each	2000	10000

*Wages of Laborers.*

To pay Laborers employed in all the different  
branches of coining money (which includes all  
the workmen employed in the Mint except  
the Mechanics) about 100 Dollars a week — 5200

*Incidental & contingent expenses & repairs.*

To pay Mechanics employed in making and  
repairing Machinery for the Mint  
about 50 Dollars a week — 2600

To the new coining press & other  
cost 50 250 250

Carried to the debt of the United States on account Current			Dollars	5812. 63
31	89	Albion Cox. . . . . for contingencies	55.	89
"	90	Henry Voigt. . . . . for do	123.	92
Car. to D. of the US in a/c			Dollars	6021. 84

Questions which the Committee on the Bank, request  
favor of Dr. May to answer for their information?

1. What are the actual Duties of your office, as proposed by you  
Person?
2. What Officers are employed by you in your own Department  
their Duties & Compensations?
3. Whether any & what Improvements in the Institution may yet  
be made, to promote its usefulness to the Citizens of the Union,  
particularly in regard to the Distribution of Copper Coins?  
Is any attention necessary (and what) in the quality or weight  
of coins, both in the present State of Copper Coins?  
What stock have you on hand, & what is the capacity of  
what have been for some time at the Bank from the com-  
mencement of the War?
7. What quantity of the Institution's notes have been brought in by  
private Persons for exchange, and what was the alloy?
8. Have any Reduction of the Stated Expenses of the Institution  
at present arranged, so prudently & advantageously made?
9. What remuneration are made from Public coin at the Bank, as  
a compensation for the Expense of Refining & Minting?  
In what manner are the Treasuries of the Bank kept  
by you, & how often do you account with the Treasury?
10. In what manner (by what in the Charges) that the present Notes  
& Copper Coins, are received & paid out by you, to the different  
Officers for Coinage & to the Person to whom it belongs for when  
coined -
11. What are the Inconveniences (or are there any) that you experience  
in the Discharge of your Duty from the cause as it now stands?  
Any other Remarks or Information you may think proper for  
the Committee to know, previous to their Report?

1794.

Chas. F. Smith Chairman

5<sup>th</sup> The Bullion capable of immediate coinage is all in the possession of the Comr

6<sup>th</sup> The amount of Copper Coins paid to the Treas. U.S. from the commencement to the 18 of December 1794 in Cents and Half cents is in Dollars ————— 10,574.79

The amt of Silver Coins rec'd by the Treasurer of the Mint to December the 18<sup>th</sup> 1794 in dollars and Half dollars ————— is — 4,408. —

The amount of Coins rec'd by the Treasurer of the Mint to 18<sup>th</sup> Dec 1794 ————— is 14,922.79

7<sup>th</sup> The Treas. has rec'd in gross Silver Bullion ————— 116,783.13 <sup>the</sup> <sup>dolls</sup>

The quantity of alloy contained therein below the Standard of the U.S. ————— is 24,578.7 <sup>at</sup> <sup>dolls</sup>

The amt. del'd to the assayer and chief Comr to Dec 19<sup>th</sup> 1794 ————— is 55,901.13

The remainder in the Treasury of the m. — 60,882. —

8<sup>th</sup> The Institution appears to have been conducted by our ingenious Director from the beginning with so much judgment and strict economy that in my opinion no reduction can be made in any part of the Institution with propriety or advantage and I conceived on the contrary it would comport with justice and good policy if among other amendments and alterations in the Law provision was made to enable the Director to increase the Salaries of the Clerks which the Law at present does not allow to exceed 500 Dollars each a year I am persuaded the committee will join me in opinion inadequate to the increased expenses of living in the City as their offices are of considerable trust and require steady attention

9<sup>th</sup> The Director and other officers of the Mint have been unanimous of opinion notwithstanding some ambiguous expressions <sup>that the</sup> Law did not contemplate any reservation or compensation for the expense of refining, melting and coinage, they have been satisfied in their opinion by the judgment of the former and present Secretaries of State

The first, second and tenth are eleventh questions as far as they relate to the duties of the Treasurer's Office and manner of keeping and rendering the Accounts, and forms of receiving, but here and paying Coins will be answered most satisfactorily by referring to the Laws establishing the mints and the Directions of the Treasury for keeping and rendering the Accounts. In answer to that part of the second question which relates to the number of Assistants and their Compensation, hitherto only one Clerk or Assistant has been employed at 500 Dollars Annually, but if several presses should be kept <sup>fully</sup> in operation it is probable another Assistant may be necessary, whose duty will be principally to weigh the Bullion and weigh and count the Coins —

3<sup>d</sup>. — With regard to improvements. I consider myself the least competent to this question having lately appointed and examined a Committee of Bankers of which one member below standard is to be coined at the Mint, with or without compensation from the Depositors, it should be more clearly expressed by the Law — With regard to the distribution of Coins. The practice is to deliver them to the Treasurer of the United States, as well in conformity to Law as in compliance with warrants from the Secretary of the Treasury — At the Treasurer's request they are sent to the Bank of the United States, he has approved of their being distributed to the other Banks. The Treasurer of the United States <sup>and</sup> ~~as well as~~ the Director of the Mint have always been most favorably disposed to oblige every applicant, without partiality unless in favour of distant applications, concerning them in some degree entitled to that polite preference which is due to strangers who have less frequent opportunities of being accommodated.

Answers to the 5<sup>th</sup> 6<sup>th</sup> & 7<sup>th</sup> Queries

The Treasurer has received in gross Silver Bullion Dollars 200 116,783.13

The quantity of alloy contained therein below the standard of the United States is — 24,578.7 <sup>parts</sup>

The coin delivered to the Assayer and Chief Coiner to the 19<sup>th</sup> December 1794 in gross weight is 55,901.13

The remainder on hand is — Dollars 60,382.1

The amt. of Copper Coins paid to the Treasurer of the United States from the commencement to 18 Decr. 1794 in Dollars 65 Cents and Half Cents is in Dollars 10,514.79

The amount of Silver Coins received by the Treas<sup>r</sup> of the Mint in Dollars & half dollars to Decr. 1<sup>st</sup> 1794 is — 4,405. —

The amount of Coins received by the Treasurer of the Mint to the 18<sup>th</sup> December 1794 Dollars 12,922.79

Answers to the 12<sup>th</sup> & 13<sup>th</sup> Queries.

The Treasurer has considerable inconvenience from the manner pursued in receiving the Bullion in large drafts from individuals, and delivering it to the Assayer first, in small drafts to be refined, then receiving the process from him, and delivering the same to the Chief Coiner to be coined — this mode produces a series of perplexity and inaccuracy arising from the difference of one large and many small drafts, and from the loss of fractions in estimating the standard purity and value in the money of account, which not having been considered in the forms prescribed by the Secretary for keeping and entering the accounts of Bullion and coinage, renders it necessary for the Treasurer to keep a subordinate set of Books, besides a multiplicity of superfluous business of weighing the Bullion in or out continually to the different offices of the Mint — He is therefore of the opinion that it <sup>will</sup> conduce to good order and convenience that all the deposits ~~of Bullion~~ <sup>of Bullion</sup> should be received by the Treasurer in the first instance, where having it must necessarily first pass thro' in the process of melting, refining and assaying, and be regularly passed to the Chief Coiner, when it is known to be standard purity, in such quantities as is ordered at the direction of the Secretary.

[turns & backwards, this party]

Articles of Agreement entered into & concluded upon the  
day of December in the year of our Lord 1791 between  
Alexander Biddle of the City of Philadelphia, Doctor in Law  
of the one Part, and Elias Townsend Director of the Mint of the  
United States, by & with the assent of the President of the United  
States testified by express the approbation of the ~~United States~~ Senate  
subscribed by his own, of the other Part, witness both the said  
Alexander Biddle & the said Elias Townsend for our consideration of the foregoing  
Agreement herein after mentioned, do the hereby agree & promise to  
agree to import into the City of Philadelphia from Great Britain  
any quantity of good Merchantable <sup>not exceeding twenty Tons in each Year</sup> English Sheet Copper, of such  
thickness ~~as may be directed by the President~~ as shall be directed by the President or his  
Successor in Office, for the use of the said Mint, and deliver the same  
to the President or his Successor in Office, their Order, that is to say  
the quantity of Ten Tons of the best manufactured Sheet Copper by  
some of the first spring ships of the year 1796, and the quantity  
of Ten Tons more in some of the early fall ships of the same  
year — And the said Alexander Biddle doth deliver to the President  
or his Successor in Office for the like use within one week from  
the date hereof, the quantity of five Tons of good Manu-  
factured English Sheet Copper of the thickness pointed out  
to the said Alexander Biddle by the President at the execution of these  
Articles — And the said Elias doth for & on behalf of the  
United States, doth hereby promise & engage on the behalf of  
the said United States, to pay to the said Alexander Biddle  
for & about the best Price of the said Copper at the place  
factory in Great Britain, with the expenses of outward  
Carriage, portage, Insurance & freight, together with five  
percent Commission, in full for every other charge or  
charge both in England & Great Britain & in America  
that is to say your Bill of Exchange at the date of the  
Bill at the current rate of Exchange at the time of pay

sent and in case of a delay of Payment beyond ten days  
after the delivery, then to allow lawful interest for the same.  
And also that the S<sup>d</sup> Store shall for the full Term of Years to be  
delivered in our work, not only pay to the S<sup>d</sup> Claude Beland  
the Rent of the Premises, the engine built there with the addition  
after except the Commission, which shall be at the discretion of  
instead of five, to be paid in manner of — And the S<sup>d</sup> Claude  
Beland shall ~~not~~ <sup>not</sup> be bound to pay to <sup>import</sup> the S<sup>d</sup> Store  
any of the like gratuity, shall be imported from <sup>any</sup> ~~any~~ British by  
any Person whatsoever and shall give notice every other day about  
mentioned in ~~the~~ <sup>the</sup> ~~most~~ <sup>most</sup> reasonable terms as any other Case could  
be — The bookish whereby the Parties to this Present have  
assented <sup>whereby</sup> ~~assented~~ <sup>to</sup> their Hands & seals this Day & Year first above  
written —

The President of the United States, in order to give effect to the above Agreement on the part of the United States —

Articles of Agreement

1795

Philad Jan 12 1798

Mr. Mendenot

I am sorry there is any  
difficulties attending in the Bill I delivered You  
In regard of the Silver  
you being charged for the same I have the bill  
the price of silver You are aware of your  
value not being in a Market & kept at home  
about a Week since I have in New South

In regard of the quantity  
it will amount to a great weight from the  
46,000 lb of French Silver delivered in the  
Philadelphia Mint

I have the heavy Refr in 2000 lb weight Imperial Malle  
the least which I have taken for test to Refine on  
should be about twice the weight of the above  
Imperial Malle

In regard of the Silver the  
was was informed that it would not stand You

21st

My, I presume to take the liberty  
of requesting you to send me 2 doz of Cabbages (these  
have made yesterday is not dry nor perfect they  
will not) I will only please send me  
I will thank you to let the ladies help of putting  
Globe Warts about 1000 with Squatellus in  
and a sticking Put Warts on the Warts has with  
them. Myself. Yours

On Monday I shall make several very  
good Silver Pasting and many of the above which  
be wanting at the Mount with Pleasure, <sup>and</sup> make them

On Monday Morning I will wait  
on you for the purpose of knowing as I am perfect  
Master of the business you will have to offer  
myself - and take for Master of the  
Mount -

Be Resident for this year in

the small pieces of paper with names & letters  
any other way of the same kind as the one  
below (given to the same person as the one to be  
mentioned in every other case) will be given.

Almanac with & documents  
of the year 1878

The Annual Report  
of the  
Dept. of the Interior  
for 1878

Almanac with & documents  
of the year 1878

Alexander Hamilton Esq.<sup>r</sup> (29)

Sir

By request of Mr. Cott, we answer  
his queries, by informing you that we would contract  
for the delivery of eighty Tons refined Copper of  
sufficient fineness for the purpose of the Mint, &  
if we are informed of the size and shape in which  
you would want it cast, we would be bound to  
be done accordingly. The price will be thirty six  
cents per Ton. Tons deliverable at New York in  
the month of June next, Ten in the month of July  
Ten in the month of August, and residue to com-  
plete the eighty Tons to be delivered in the  
Months of September & October.

If more should be required for the pur-  
pose of the Mint, or for the purpose of Vessels we  
shall always be happy in having the orders of  
Government.

The Price per, at which we  
have offered to Contract for the above Eighty Tons  
you will see is very considerably less than it can  
be imported for and the quality of the Copper  
sufficiently known to need an explanation - it con-  
tains six ounces of Silver in each C<sup>t</sup>. which

It is no sufficient to state, merely, it was made  
than any imported - It always sells for a far  
greater Price in England than any at that time  
did, but for what reasons we are not able to  
mention -

We will mention the <sup>Extraction</sup> of  
Refined & Refined Copper, as the kind and  
quality of the same is much better than in Europe,  
and hope to be able to furnish Copper in Sheets  
if required -

Our Government is ever ready to assist &  
patronize undertakings of such evident public  
utility, when they consider the expense we have  
been at for the purpose of bringing these works  
thus far they may perhaps wish us to receive in  
proper to lend pecuniary aid, upon approved  
security, which is so necessary in order to  
facilitate such extensive undertakings &  
make them useful to a Country -

The quantity of Copper which we are  
to deliver will amount to upwards of 64,000  
Dollars - pray Sir, can we depend on re-  
ceiving any part of this sum in advance? We

We have the Honor to be with the greatest

Respect

Yours Obedt. Servt

Wm. Jacob & Mark & Co

Wm. Jacob & Mark & Co

Mr. I propose to engage with you  
as any other gentleman on the follow-  
ing terms, that is to say - To receive that  
piece of the weight 500 - and give the  
same into your plate for circulation  
at the rate of eight dollars off. Then  
to return the plate in good order  
deducting twenty five pounds in each time  
for use. I will also pay and load all  
the Lids, Beds and punches for the same  
Philadelphia Nov 10 1795

John Harper

Treasury Department,  
Oct. 21<sup>st</sup> 1795

Sir

In reply to your letter of the 17<sup>th</sup> instant  
I am to inform you that the draft bills in the Public  
Store, of which you have a certain quantity for the  
use of the United States including  
charges thereon about thirty dollars per hundred  
weight.

As the value of this draft bills must be  
refunded to the Treasury, I request you to present  
a statement thereof that when the account is  
settled, a warrant may issue on you in favor of  
the Treasury.

I am very respectfully

Yours most obedient servant,  
G. M. W. M. G.

Henry William Byland Esq.  
Director of the Mint.

Je

It has been found necessary to build a Vault or place for the Chief Coiner, because the Chief Coiner's house is too extensive to be confined to a Chest or Chests, and the place where the deep Vault is too small to hold many Chests, besides two damp for Coins.

Secondly, the Coins must have constant access to the Vault, every Hour in the day. Thirdly, the Coiner must have many divisions in his Vault for the different Apartments for his Blanchets, as also he would be under the necessity of mixing all together what has been Assayed & what wants to be Assayed.

Vis. -- As there are Sticks some in one state and some in another, & the Blanchets are some just as they must be assayed & examined by the water and weights, others are examined & not adjusted, others are adjusted & not Milled, others are Milled and not Annulated, others Annulated & not Whitened, others are Whitened & ready to be coined & those which are coined. All these different Processes must be kept separate & must not be mixed together, or else it would cause a great deal of confusion.

The Chief Coiner should have one Key & if any other Officer has a Key to his Vault he must be one who is always at hand, especially in the Morning when every thing is taken out which is wanted for the hands to work upon & in the Evening at quitting time when every thing

If paid in again over night. Therefore the Maysers will not  
be the proper Officers to hold the checks there. For the Coiners  
Vault, as that Officers business does not commence so  
early in the Morning & so late at night.

The Chief Coiner should be lawfully permitted  
to make a Check Pay, at any time when he thought  
proper. ~~Indisputably on the same principle~~  
for there is as much necessity for a Check to be on the  
Maysers, as well as on other parts in the different departments,  
for that purpose the Chief Coiner should have an assay oven  
scale weights, tipples, compasses, and all other apparatus  
necessary for assaying and be kept separate from the  
Maysers, that as yet in another room by itself.

The Chief Coiner ought to have nothing to do  
with the Melting, nor Standard, but the Melters ought to  
receive the return from the Maysers, of the contents in the  
Metal, how much it is two fine or two coarse & what  
Alloy is to be added to a certain quantity; & what fine Silver is  
wanted to a certain quantity if below Standard to make it  
Standard of the United States; & the Gold the same.

All Gold dust brought to the Mint or any other Gold  
which must undergo refining, should ~~be refined~~  
(except such which has the alloy as that of this Mint, to  
which a proportional quantity of fine Gold may be added to  
bring it to Standard of the U. States, if two coarse) because  
the Gold dust contains a considerable quantity of foreign Metal  
which all should be evaporated & none left in the Gold,  
even if there was no foreign Metal in, there can be no  
continuity.

in any respect except the following is agreed to, the Comr  
must have a smith at command who is to make all  
the necessary Iron work, & Will Wright who is to be had  
on five Minutes warning, to make or mend any thing  
that is wanting of him. But to procure Rollers  
etc. as to have always spare ones the difficulty is sufficient  
the Rollers for the Mint must be hard such as cannot be  
cast as yet in the country, for the want of Iron or Brass.  
Metals. Iron rollers cast for the Mint are said to have been  
found to no purpose, for none of them has as yet been  
found sound, & if ever they have been found sound, they  
could not be got hard enough to roll cold metal without  
great quantities of the large Stone is not  
admirable yet. The Mint to be supplied with Rollers  
that is to have Iron or Brass moulds made on purpose,  
and such be kept always in the Mint, and when  
Rollers are wanted, these moulds then only to be  
sent to such an Iron furnace as thought proper and  
the care of the Chief Coiner, or some other trusty person  
to see each Roller cast under his Eye, and as soon  
as the Roller is cast, it is to be sent  
back again to the Mint; and there be kept till wanted  
again. By this mode the Mint can never be kept  
for the want of this part of Machinery. But such  
moulds would be considerable expensives to have them.  
But would be everlasting useful if used for the Mint.  
Alas. However before a Determination should be  
made

It much wanted because there were always too in  
hundred, & too little work done in that time, for the  
hands cannot find the fire, but the fire, the large  
quantity of Metal, and this alone is what will be  
productive in producing with ease with few hands  
large quantity of Ingots, which has always been a  
great trouble to the people of the country, and is the  
cause of the

But I will make a proposal to the same people  
to fix the same above mentioned, the approved of the  
time was so short to begin on it, as he had no time  
to stay with us, I gave him a plan of a furnace  
which would contain a large pot of 1500 lb. constant  
the furnace to be fed with Stone Coals. because the Coal  
is to be had at all times in large quantities of Metal  
I would now upon us in the winter season our fuel  
of Coals would not last long, and could not last till  
spring, if the Melting pot must be kept going every  
day, this store of Coals will not last 3 months, but  
Stone Coals can always be had, & may lay in the area  
the furnace at hand, & the people of the country  
(at least I never saw one a head of one of the kind)  
the people of the country can easily explain if required

The reason concerning the implements or  
tools belonging to the Chief Council to be kept always in  
good order, the Chief Council cannot possibly supply

Certainly, in the gold and what the Alloy is composed except  
it be examined, and that would be too much trouble for  
the Assayer; but if made pure it can be precisely alloyed as the  
Law directs, but to assay the Copiers for alloying the Gold  
with Silver and Copper, the Assayer should be directed to obtain  
or retain as much of the pure Gold on weight as has returned as  
pure Gold to the refiners, and then to assay it to see  
if given which it will be made standard with the best as  
the necessary allowance for wastage which it must sustain  
in the different processes of melting, refining, &c. &c.  
and if any error, the error should be in favour of the Assayer  
for there should neither be an overplus, than a waste of Gold  
after the finishing of any Deposits.

The Assayer is not a proper Judge respecting the  
assay not acquainted with the Properties of Alloying.

There is another circumstance which I wish  
mentioned although not belonging to the subject. The Mel-  
ting Potts which are made use of in the Mint are much  
too small since the furnaces built, for there cannot  
melt any larger Potts than are there much larger  
furnaces below which these new Furnaces built, &c. &c.  
have covered them with these. In melting Potts a  
large quantity should be held no less than 200lb but  
but commonly 300lb weight when there is a quantity of  
Metal. For it is as easy & easier to melt 300lb weight  
for the Melting than a lesser and even a waste of  
Coals and Time; very few boats men will melt 300lb  
as every 100lb will melt more than half the time <sup>the time</sup> it will

Although it has not yet been done in this Mint, it is done  
in all Mints in Europe, where they work to a Mould or stamp  
to standard purity. This may be performed here as well as  
in any part of the World, it wants only to be insisted on.  
First, the trouble is no more for the Assayer, than otherwise  
only he must be in the Mint when a gold piece is ready  
for assay. The trouble for him is no more, if the  
he has weighed his assay the same he put in the crucible &  
by assaying in better parts under the Muffle, but the loss  
in assay stands, or perhaps there it may be drawn out  
with safety, and want Sp. I don't mean to mention  
this as an Instruction for the Assayer, for I am confident  
he is well acquainted with what I have said in respect  
to the assay as any Master Jeweller gives this for the reason  
it belongs only to such who are acquainted with the  
use of that Metal for an Assayer is not acquainted with that  
part, good Assayers can only be procured but by working it  
as here that is read the assay which will not do this  
is not good.

The Assayer should always make an assay  
on the Silver or Gold when it is in the melting pot  
and in fusion, & not in respect to the weight of the  
Standard, for when once Casted in Ingots, then it is too late  
to rectify without melting the whole over again, for a little  
too good in Standard or worse, makes in a large quantity  
something considerable when Silver or Gold is in hand for  
coins. The Assayer should always be ready to make  
Assays in a Minutes warning, then will certainly

to have such results made as mentioned before & before  
final determination whether the Mill part in to stand  
is to be moved by horses, as it now is, or not. This then  
as winter is not to be had in this life, that  
power cannot be applied. As I have made a  
Calculation & Observation, concerning a Steam Engine  
before I think it worth to present in  
that a Steam Engine would be a very great improve-  
ment in respect to save for the Mill work.

Order & Direction, in conducting the duties  
of the United States established by the  
President, under the Act of the 2<sup>d</sup> Nov 1792

The Chief Clerk will receive all papers & applications by the  
President of the U.S. to receive all business after it is approved  
with a copy of the original report from the Treasurer of the Mint.  
He shall take care that the same is entered & preserved according  
to the Direction of the Mayor, and then rolled & coined into  
the coins of the United States, in such proportions as he shall  
from time to time be directed. — He shall prepare to have  
under him, a Master printer appointed pro tempore — with  
other necessary Workmen & Apprentices. —

The Chief Clerk will from time to time report to the  
Director the Workmen employed therein, with their Names  
their Ages — Country, Sex, Professions & State of Slaves —  
He will take particular care that none are employed  
that may be properly dispensed with, or any one em-  
ployed is kept constantly engaged in the duties assigned  
him. — The Hours of Work must be from 10 o'clock in  
the morning till 4 o'clock in the afternoon — allowing  
for 1/2 hr for breakfast & 1/2 hr for Dinner — He shall  
that there may be no loss of time, a Bell is to ring on having  
Work & another for commencing it — every apprentice to be  
used & discharged according to — Every Workman  
to be engaged by the Month or day — The Chief Clerk will  
employ one Clerk for assisting him in the duties of his Office —

Mint of the United States Nov 2<sup>d</sup> 1798

Great difficulties & embarrassments having arisen from the practice of charging the Coinage of Metals in the Banks of the Mint, with the several species of Coins supposed to be paid to Depositors, when in fact they are paid by checks drawn on the Bank of the United States, when all the Coins are paid in by the Treasurer of the Mint, by which this practice appears to be altogether fictitious, which ought not to be allowed in an institution of this nature, and it appearing not to contravene any directions issued from the Treasury of the U.S. to alter this practice, the Director orders, that in future, these Entries be discontinued, and that the Bank of the U.S. be charged with all sums paid them in the different Coins of the Mint and credited with the Checks drawn in favor of Depositors, and that ~~the~~ <sup>the</sup> other dependent accounts be regulated agreeably thereto ~

Bank of North America  
June 5 1795

Please to pay to Mr. Smith for the  
Use of the Bank of North America the  
whole of the Money coined into Dollars  
for the said Bank & now remaining  
in the Mint.

Richard Wells Cashr.

To Nicholas Way Esquire  
Treasurer of the Mint

Sum of Deposit 19,271.15 = 22,236.63

Please hold at the Disposal of the order  
of the Cashier of the Bank of the United States, the  
Twenty three Mass of Silver Deposited by me in the  
Vaults of the Mint of the United States - whether  
in their present state or in Coin - by which  
You will oblige  
Yours at Serv<sup>t</sup>  
Philad. July. 1795 *Sam<sup>l</sup> Swan*

The Directors of the Bank of North America  
are consenting to John Vaughan receiving out  
of the Profits deposited at the Mint by the  
said Bank, a share not exceeding Eleven  
Thousand Dollars, to be repaid out of the  
undivided Half of the Deposit by John Vaughan,  
as soon as it shall be ready to be delivered  
from the Mint. It being intended by the Bank  
to forgoe any Right of Priority in the present  
Circumstances for the sake of a general Convenience.

Prot. Secy. Eng<sup>r</sup>

Sir -

Mint Office 17 Oct 1796.

In conformity to the request  
communicated through the Register  
of the Treasury, I ~~submit~~<sup>transmit</sup> an Estimate  
of the probable expenses of the depart-  
ment of the Mint, for the year 1796.  
~~I have been obliged to alter the~~  
former estimate, but it has been formed  
from a view of the actual expenditures  
of several quarters past, during which  
the ~~mint~~ Mint has been kept in pretty  
full operation. I have the Honour

With great respect  
Sir, your most Obedt  
Servt  
W. D. N.

Philadelphia June 20. 1795

Sir

I have done myself the pleasure of writing to you twice offering you, with the permission of the President the office of director of the Mint. Be so good, as to inform me by the earliest opportunity of your inclination on this subject; and be assured, that I shall be gratified by learning, that it will be acceptable to you.

I am Sir

Your mo. ob. ser.

Edm: Randolph

To

Henry Wm. DeSaussure Esq.  
of South Carolina  
now at Morristown  
New Jersey

South Carolina

City of Charleston

I do hereby certify that the foregoing is a true copy of the original letter, now in my possession, from Mr. Edmund Randolph Secretary of State of U.S. to my father the late Chancellor Henry Wm. DeSaussure.

Dec: 10. 1850

W. A. DeSaussure

To the Treasurer of the Mint of the United States

Sir.

You will please pay <sup>in delivery</sup> to the Bank of  
Maryland or to their Agent Twenty Thousand  
Dollars of my Deposit, in return for Twenty  
Thousand Dollars of their Deposit in consequence  
of their order (by their president) to deliver me  
same, dated 28 Feb. 1795.

Received  
 Treasurer of the United States  
 Sept 30 1795

Bank of Maryland  
Baltimore 28<sup>th</sup> Feb<sup>r</sup> 1795 }

In consideration of the advantages arising from the  
Deposit of Silver Bullion made by Mr John Laughon  
in the Mint of the United States, by which the Coining  
of the Bullion deposited by the Bank of Maryland  
is much accelerated. The Directors of the Bank  
of Maryland Consent & direct that the said John  
Laughon shall receive out of the last half of the  
Deposit of the Bank of Maryland a sum not exceeding  
Twenty thousand Dollars, to be retained & paid  
out by the first half of his Deposit when the  
same shall be ready for delivery.

Wm. Johnson President

August 22 1792

Sir

Your account coming in April  
1 and being June 20 1792 has been adjusted at  
the Treasury and a balance stated to be due  
from the United States of four thousand and  
ninety Dollars and twenty seven cents.

The account states by your exps.  
to be a balance due to the United States of nine  
hundred and nine Dollars and seventy three cents  
- the difference therefore is five thousand dollars  
which arises from your not being settled with  
the latter sum credited by you as received from  
the Bank of the United States on the 22 of April.

This will be done in a future settlement when  
a Warrant has been issued therefor.

I am very respectfully  
Sir,

Your obedt servant

Henry Kuhl

Clerk of the Treasury

New York 15 March 1848

Sir

I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the matter of the 1st of this month. The Committee of the Board of Directors of the New York and New Jersey Canal Company have been instructed to prepare a report on the subject of the proposed extension of the canal to the city of New York.

I am, Sir,  
 with great respect,  
 Your obedient servant,  
 J. M. Smith

Comptroller's Office

28<sup>th</sup> December 1795

Sir,

Your account of Ordinary receipts & expenses, commencing on the 1<sup>st</sup> of July, and ending on the 30<sup>th</sup> of September 1795, has been adjusted at the Treasury; in consequence of which, a balance of Nine thousand two hundred and seventy Dollars, and Seventy seven cents, is stated to be due to you from the United States.

The account stated by you exhibits a balance due to the United States, of Two thousand, five hundred and twenty nine Dollars & twenty three Cents, the difference therefore is Eleven thousand eight hundred Dollars, which arises from your not being debited with the latter sum credited by you, as received from the Bank of the United States, at the following periods.

On the 22<sup>nd</sup> of April ..... 5,000  
On the 18<sup>th</sup> of July ..... 6,800

Dollars 11,800

For

For these sums you will be charged in a future  
settlement, when warrants shall have been issued  
to cover the same. -

I am, very respectfully

Sir,

Your Obedt. Servant

W. L. Davis

To the Auditor of the United States

London 3<sup>rd</sup> May 1792

We beg to acknowledge the favour of your communication thro. Mr. Gutterman & to thank you for the Assurance you have given to us. The Order for Ten Tons of Copper for Barges shall be completed by the Company in or about a Time as possible & as many Shrotons shall be struck as can be got ready in Time. The Price of the Sheet Copper will be 12½ p lb. The Price of the Plate will be without Discount but if the Orders are continued to the Company so as to make it worth their while to adopt a Improvement they will probably be supplied at a Price of Copper conforming as at present & proportionably higher or lower. Our Copper is of the best Quality, inferior Copper may be had cheaper.

On the subject of the Duties remaining from the Barges at Philadelphia. Your Board will depend on the Goodness of the Copper and the net proceeds cannot be ascertained till this subject is in the Treaty of Commerce. A Duty of £10.10.0 is payable on all Iron or Copper. Warehouse Room Barge &c as incidental Charges being allowed on all. The no Advance will be shown, whatever you may want consigned to us shall be carefully attended & in demand of what transmitted which in a

you to ascertain the value of such shares  
and to advise you accordingly. He will take the  
trouble of shipping the goods & making insurance  
on both the freight & cargo without charge.  
If the cargo is generally good with what we  
send the rate will be about £84.10. &  
you subject to the Deductions before mentioned.  
If it is your intention to engage to us we  
must give you as early notice as possible to  
make the Insurance in time and direct it to  
Mr. Edward Douglas our Agent at Bristol  
as Works being situated in Wales. Our  
Agent is the Governor & Company of Liverpool Marine  
in England - for whom I am  
Yours most obedt. Servant  
M. Gurnett & Co.

1. 2nd 1/2 1896

Mr. William H. Coffin

Dear Sir,

I have the pleasure to acknowledge the receipt of your letter of the 1st inst. in relation to the proposed company as a carrier for the delivery of mail matter. I have been unable to find any authority in the laws of the United States which would authorize the establishment of such a company. I have, however, been advised by the Post Office Department that such a company is not authorized by law. I have, therefore, been unable to give you any definite answer. I am, however, sure that the Post Office Department will be able to give you a definite answer in the near future. I am, therefore, sure that the Post Office Department will be able to give you a definite answer in the near future.

Very respectfully,

Wm. H. Coffin

Dear Sir

London 13 July 1896

I regret to your early response by a check  
called the Summer-festival I hope can be made handy  
in answer to your favor of the 7th March and  
to the Spring and the Summer end of April, giving some  
time as you were not able to execute your order  
with a great dispatch as it was our wish and your  
desire but we do not know how soon in your letter  
14. The effort was made the subject involving considerable  
consequence to your estate. I have sent the same.

The same by the Rebecca with the whole of the the  
the of the a considerable part is sent into the  
the remainder on that's the it will give you a whole  
of the you will be with the the the -  
of the that you are indebted to the company  
including the insurance of which the have  
received from the the the of the the you committed  
them there will be a balance in their favor. I have  
seen at the expense of having engines made for the  
purpose of cutting the the will now be able  
to the without delay any further the you may

William H. Johnson

From H. Coltman  
July 12. 1796

March of the 11th 1841

Sir

- of Jan 2

Your favour of the 11th July came safe to hand  
and a few days after the paper arrived by the vessel and  
has been sent at the time. I am sorry to inform you that  
we were much disappointed in examining the Planchette. They  
are so badly executed, that the design we had in presenting them to  
be cut is frustrated. I mentioned in my letter of the 11th March  
that they must be cut from

all ready for cutting, but there are cut out of some solid  
sheet copper, many of them too small to be used and almost as  
rough as sheet iron. I have then all to clean & even  
by which there is but little left and almost as much expense  
in cutting as before. This is a great disadvantage.

water, made out of the best and largest paper, and is  
ready for the Press. This makes so material a difference in

the expense attending the business as to be worth attending to.  
I have ordered a Revolt to be cleared & second ground, but  
they are ~~very~~ <sup>but hardly</sup> papable, arising from the rough state of the copper  
of the convexity of one side of the Planchette.

It would have been a great advantage to have  
the supply from your company having had so good an opinion from  
the recommendation of your friends here, but there is a necessity of an  
order being better executed than they can possibly be from the manner  
of the little expense will be avoided by Planchette, unless  
be better executed. The sheet copper we are obliged to have at  
2 one again, which adds considerably to the expense, but  
very high at present. Enclosed you have a bill of exchange  
and pay for the 11th March that I have by

at his house, being the balance due to you for  
this transportation —  
I have the honor to be with great respect  
Sir, Your Obedt. Servt.  
Wm. J. Hallam  
Wm. J. Hallam

of the property to which the above will come as in answer.

101  
Circular stamp

New York Jan<sup>y</sup> 10. 1796

Y<sup>r</sup> favor of the 4<sup>th</sup> inst<sup>o</sup> relative to  
your Rollers we have received. — We have no  
Pig Iron on hand, nor do we know where to get any  
of the peculiar quality you mention & therefore we  
cannot undertake to make the Rollers.

We have found by experience that very hard pig  
iron when cast into ware is always brittle, very  
brittle & subject to be honey combed, of course is not fit for  
Rollers, besides they can't be turned when they are so  
very hard, even if they do happen to be found,  
for no tool can be made that will stand to turn  
them. — Should not be the best way to get the  
Rollers made of steel & turned smooth before the  
steel is hardened, or make the inside of wrought iron  
& lined with steel of about an inch thick, this last  
method would make the backs of the Rollers stronger  
than if they were made all together of steel. —  
If you should want any other castings we will  
be glad to serve you.

Yours most

Obedient Serv<sup>t</sup>

Wm Boudinot Esq<sup>r</sup>

Jos. Cortisius Esq<sup>r</sup>

P.S. Mr Thomas Reynolds at the Brandgum  
Mills can turn Rollers in the best manner, his  
works go by water & therefore can afford to turn  
cheaper than if it is done by hand —

Mind of the Southern Slave  
 Chief Customs Office, Beaufort St. 1750  
 Locking's Store, 1750.

Elmer, Vermont, Sept.

I have commenced with attention the different points of Copper in the English Market for the last 20 years. In 1791 it was 10 pds at which rate I had continued for a number of years, until the price in Manufacturers dated 3 Dec 91, informed me that it had risen to 11 in the summer of 92 I advanced to 12. On the 10th Octo 92 it rose to 13 pds at which price it continued till the 21st Feb 93 when it rose to 14 with the 1st Nov of the same year it fell to 13 pds & continued at that price till the 5th March 95 when it fell to 12 at which price it still continues. The prices above stated are Manufacturers.

I will engage, <sup>to supply</sup> any quantity of the best Manufactured Copper that comes from England perfectly available to the Order given at the Manufacturers Cash price with the addition of outside Case, Postage Insurance & Freight with 5 p Cent Commission which shall be in full, Primary Charge of Land Freight both in England

I Receive the payment on delivery of the Coffee on 6 day  
 between London and Cash at the current rate of Exchange  
 upon condition that the above Coffee is accepted & sold  
 forward you with the whole of my part of the Coffee then  
 on hand on the following terms —

100 lbs Coffee	£ 10	5. 0. 0
Exp. 100 lbs	3. 0. 0	— 3. 0. 0
Freight	—	— 0. 0. 0
Proportion of Com. 100 lbs	—	— 0. 0. 0
Exchange 100 lbs	5. 0. 0	— 5. 0. 0
Com. 100 lbs	9. 10. 0	— 9. 10. 0
Com. 100 lbs	10. 9. 0	— 10. 9. 0

I can be provided this Coffee only on my drawing immediate  
 by that it is to be taken. It is now late in the season  
 so that that business I should not be able to supply  
 it — the Spring which would arrange my affairs must  
 I leave my duties on side —  
 Yours & Affectionate Son  
 James D. Spence & Co

Philadelphia 12<sup>th</sup> Dec 1822 Mrs. Prichard

It seems as soon able to calculate Mr  
Cox was with two hands at work in his assay room  
from the 18<sup>th</sup> of July to the 27<sup>th</sup> of Nov<sup>r</sup> 1775 at that  
silver from which the Gold was Extracted which  
belonged to Mr Vaughan, there were sometimes  
three hands in the said room employed for  
the same purpose, but sometimes Mr Cox had  
not for one hand to assist him in making for  
the Mint so that at an average the hands  
Wages alone would amount to  $\text{£}225$ -

A 1000 Ounces of Silver to be Melted for  
granulating will take 5 or 6 Bush<sup>ls</sup> of coals  
then 42,000 lb it has at least taken 225 Bush<sup>ls</sup>

at 5 L per Hundred - - - - - 33. 25  
To bring the Gold into a body & drawing 25 Bush<sup>ls</sup> - 3. 25  
Coals for Refining 200 Bush<sup>ls</sup> at 2/11 p Bush<sup>ls</sup> 35 -  
The hands Wages for Refining the } - 50  
most time he made use of five hands }  
For Lead Salt peter Antimony and }  
Any farther repair as per Bill - - - }

Had I not found my self particularly  
by your aid in the present business I had  
not been able to have trusted  
you with these things. The object that  
presents them has in contemplation  
the destruction of a newspaper & without  
agreement between Mr. W. Brown & Co. on  
the one hand & my self on the other. Before  
I entered into this engagement I had three  
respects of equal magnitude that pre-  
sented themselves, some of which are now  
irrevocable. Had I had the most distant  
idea of my services being dispensed with  
within the time limited I should have  
thought the contract unnecessary & a dis-  
tance from it on my part. The case is  
emergency equally urgent as alleged.  
You have mentioned the Office of  
Refuge & Shelter. I find my self willing  
to relinquish my present engagement to  
enter into that, if it meets your appro-  
bation. As I know little but the  
Theory I should not be so well qualified

STAMP

Henry L. L. L.

In Congress

New York April 15<sup>th</sup> 1796

(Dear friend

Your letter of the 5<sup>th</sup> Instant  
has been duly received & I have paid it  
due attention, and on the most strict  
enquiry I find not much sheet copper at  
this market that is to say the thickness  
you mention and the lowest price that  
I can find is about two tons which Mr  
Hendricks in Hanson Square has on hand  
for which he charges 2/9 1/2 lb. and will  
not hear to any less price others ask 3/-  
and Mr Bailey the Cutler in Water Street is  
absolutely selling at that price daily he shows  
me his books where he had sold about one ton to  
Franklin Robinson Esq at 3/- for sheathing thin  
vessels. Mr Hendricks says that he can supply a  
larger quantity than two tons provided the  
price 2/9 1/2 lb. would be given. Your real friend  
Thomas Storm

Saturday Sept. 3. 1796

Some time ago I wrote to you that we had made up  
two trials to procure Advers for the Mint, of this Country Manu-  
facture, but not one of them succeeded. The Advers we had cast  
at Lancaster found in the process, not one of them proved  
sound, after considerable work had been bestowed on them,  
and if they had been sound, the Metal being so soft,  
that they could not have been of any duration of time, and  
to have been a continual trouble to keep them in order.  
You for that reason thought proper to send to Europe for  
some Advers, on which we could depend, to be good after  
they should arrive, for that purpose I made a draught of  
the sum, and gave a description of what temper those Advers  
ought to be to answer our purpose for the Mint. But when  
some time since I found that the Advers now in use are  
getting day by day worse than what I could have foreseen  
and found that if we cannot get another pair of new Advers  
very soon, the Drawings of the Mint, will be stop? for the  
want of this very material, and necessary tool, for those  
we use are so much worn out, that the hard part on the  
is quite gone ~~in some~~ in some places, and was there is no  
any hard spots on them, in such for the ~~work~~ ~~drawings~~  
they can not be kept sound, for the soft places will dent  
in, in rolling, and the hard ones remain to go on and make  
the Gold or Silver, which is worked thicker than we need  
it, that it is a very ~~great~~ ~~inconvenience~~ ~~inconvenience~~  
rolled, with any degree of accuracy; besides these diffi-  
ties the Advers begin to crack in different places; an hour or  
moment, under fear of their breaking to pieces, I am certain  
they cannot last nearly that length of time till these  
will arrive from Europe, you have sent for, and with  
been informed that some Advers are here in this City in-  
specting by a Gentleman for his own use, but as he  
has

has received more than what he had sent for, and  
as yet for them all, I have been informed that this  
Gentleman will part with a fell, but as they are complicated  
with frames to them, he will not part with the Rollers  
alone, but the frames must go along with the Rollers  
and we cannot object to that, altho our frames are as yet  
tolerable goods, but at the same time our frames will  
fit these Rollers, the Gentleman has, as these Rollers will  
not fit our frames, and in our present circumstances as  
our Rollers, the immediate want of a new pair, it rather  
would be an impediment to us, if those new Rollers were  
without their frames, and other things belonging thereto  
because our frames not fitting as aforesaid, we would  
be under the immediate necessity to make a frame for  
them, and considering new patterns for the Castings and  
and the difficulty attending to get the Castings done here  
as they ought to be done in the country, the expense  
done, the frames alone would cost fifty, I best know  
then what I am informed these Rollers and frames  
can be purchased at. To make myself aware of what  
I have said here about those new Rollers, in question, I  
asked an ingenious Mechanick to the place, and he  
went to take a view of them, and ask the prices, and infor-  
mation I have received from him, I am able to judge  
that those Rollers & frames he are of the best kind, and  
can be purchased at the price I mentioned above,  
they belonging thereto. This I think is not out of the way  
Price! If I had gone there my self, he would have  
asked me an exorbitant price, knowing that it was  
wanted for the publick, for that reason I have made  
use of this mode, to keep the Gentleman in the Dark  
not to get any knowledge about those Rollers were to  
be for the Mint.

See

The Weaver Mr Joseph Morgan  
must be known to you & going to  
Philad.<sup>a</sup> proposes to offer himself  
to you as a Mechanic if you have  
occasion for him. He lived this  
Country as such & in every respect in  
his power, has a large family to  
maintain & there is not employ here.  
He works well in Iron (as well as brass)  
and has been accustomed to make pieces  
of the greatest power & other works used  
in Carriage, & may be found a very  
necessary man. If it contributes to  
your ease & satisfaction in this

Discharge of your Important Trust I  
shall be gratified in introducing him  
to your Remembrance, believing as  
I do, that he is confidential, helpful  
& industrious. I have the honor  
to be, Sir, your friend &  
humble servant.  
Boston 12<sup>th</sup> Dec<sup>r</sup>  
Feb<sup>y</sup> 1796. N. H. Wells  
Elias Bourne Esq.

A

Having made an Assay of the Lethbridge Silver  
bars and finding them to produce in  $\$500.00$   
fine silver which makes in standard  $\$97.07 \frac{1}{2}$   
it amounts by my calculation to about  
1090. Doll.

According to these I could not give more weight all  
the fine silver washings &c. &c. which is about  
the Metal than -  $\$50.00$  Doll.

With these conditions of first that I might scrape the  
Tops bottoms in the Wash when no other wash is  
done it. Second to have the privilege of refining the  
Metal which it produces in the refined form  
making my own Toff & finding the Metal  
Third to pay the above sum in a years time. I  
fear it may be excepted. I remain with the  
greatest of them.

Philadelphia Dec. 3<sup>rd</sup> 1840

J. L.

The reason of my saying  
some time ago to Mr. J.  
that to give a 1000 Dollars most Obedient humble servant  
is that I had the  
honor to be in Public service  
I could not for more 1000 Dollars  
than at present 550.

David Ott

Mem<sup>o</sup> of the United States 24<sup>th</sup> July 1796

Dear Sir

On settling the Accounts of the United States, I find a Balance remaining in your Hands, of £152-8-0<sup>0</sup> <sup>in favour of the Unit<sup>d</sup></sup> arising on a Sum of Money sent you in the Year 1794 — As I am now importing a quantity of Pepper from London on public Account and expect you will be about leaving <sup>H<sup>o</sup>l<sup>d</sup> City</sup> ~~London~~, I have taken the liberty to draw on you for <sup>the above</sup> ~~that~~ Balance, payable to Samuel Bayard Esq, who will <sup>apply</sup> ~~pay~~ it towards the Pepper ordered out — Enclosed you have an abstract of the A/c which you will be pleased to correct if wrong, and pay the said Balance only on the order sent to Mr Bayard —

I have the honor to be with the greatest

Respect

Dear Sir

Your very Obed<sup>t</sup> Serv<sup>t</sup>

Th<sup>o</sup> M<sup>o</sup> Thomas Bayard Esq

Printed by J. Johnson, in Pall Mall, London.

Montefiore 1. State 7 April 1880

Sir

I have made a payment of \$1000  
of that money for the fund, which will amount  
to 718 Dollars. I will be most obliged by  
your forwarding the Treasurer of the fund with  
that sum. Yours truly

Wm. L. G. G.

Sept 18 1871

I have the honor to acknowledge the receipt of the  
Memorandum of the Treasurer of the  
Mint in the Branch of the U.S. Treasury, being a copy of  
I am under a necessity of asking for the sum of  
four thousand dollars for these purposes - also  
the last appropriation for these purposes - also  
for the sum of 3251 Dollars to pay for expenses  
incurred for the use of the Mint, according to the  
amount last allowed by the President -

I have the honor to be with best  
wishes of the greatest respect

Yours truly  
Wm. B. King

The Secretary of the Treasury

Mint of the United States, 20 Dec 1866

Sir

The Depositor of Bullion in the Mint, on whom the  
deficiency <sup>quantity</sup> of Silver since the commencement of the Institution, falls  
incurs the payment of his Deposit and can wait no longer.  
I must therefore ~~request~~ ask for the sum of \$2420.71 -  
in favour of the Treasurer of the United States Mint, for  
the purpose of paying off the above Deposit -

I am &c

To the Secretary of the Treasury  
of the United States -

2420. 71

51  
Being permitted sometime last February  
to view the Mill with the Machinery thereof I have  
Employed some thought thereupon and can acquaint  
you that a Machine can certainly be made that may  
operate to a considerable Advantage if the same shall  
meet with your Encouragement.

From the Experiments which I have made  
of the Nature of a similar Nature as this might be  
So as to be Employed or put in Motion by horres (Cattle  
As Mares or Horses) I can assure you that one man  
or one full Boy can perform more Work in one  
Day than <sup>men</sup> six will in the present mode of your  
Machinery (I might with Safety say because) If this  
should be thought an Object worthy of attention  
I can further inform you that one machine may  
cost one hundred one ten or twenty pounds or thereabouts  
and will work as sufficient to manufacture  
a great Quantity of Mistle sufficient for the United  
States the Material parts of the machine ~~will~~  
where strength is necessary will be Cast Iron  
and the other parts will be plain and simple  
and not liable to get out of order Unless wear out  
by continuous Use and that the Eyes can take  
no Damage through Neglect or want of Mistle when  
in Motion I hope that these words will give you  
some pleasure to let me know as soon as convenient  
I shall be Ready to Answer every Enquiry  
and Give you every Satisfaction necessary  
for that purpose the machine can Cut and Shave  
or Give the <sup>different</sup> pieces of wood of any  
any Description and can be altered at the  
same

Spence  
Nov 17 96

The same time to my Description there as  
proposed to be held in the United States of America  
it seems convenient for you to Enquire of the  
Honorable Edward Livingston whether he  
may give you more particular Information

I am Sir with due Respect Your  
most Obedient Servant

New York Nov 28

Jas. B. Hays

Ch

It appears that the Chief Coiner is to sign a Warrant for a  
Delivery of Silver of Or 11137.13 dwt of Standard Silver and an  
others of the same Nature for 1269.00 19 dwt 2. mounting and  
the whole to Or 12407.19 dwt - but as the Chief Coiner has  
a Note from the Treasurer of the Mint for Silver the  
Chief Coiner has Receipted for and the said Silver has not  
yet been Delivered to the Chief Coiner, which amounts to  
\$5370.7 dwt 5 gr as per Note the Chief Coiner thinks proper  
that the said Note should first be deducted out of the  
Or 11137.13 dwt - & then the Chief Coiner gives a Receipt for  
the remainder, except the 1269.19 - but the Chief Coiner  
will accommodate the Treasurer of the Mint to give  
him his Signature upon such conditions which are  
consistent with his Office (but not otherwise) so that  
the Chief Coiner may not appear in action in the  
Mint, before the Publick, except as he knows why

Henry Voight Chief Coiner

Chas Boudant Esq

Director of the Mint

Jan 24 1876

Philadelphia July 5. 1816.

I received a letter on my return last Friday dated June 27. being a letter signed & signed in which appears that the Director of the Mint greatly regretted the absence of one of the principal officers of the Mint and had left the public business without least or any notice given of his intended absence.

It is true Sir, that I rather went off in haste, after waiting four days to see the Director of the Mint and to see him. That opportunity, the Secretary it was my duty to have obtained first from my Superior, before I went away there, for having transgressed, and am very sorry for it and shall in future not be guilty of such an offence again and beg pardon for having done so.

But Sir I could not go altogether on my own account in the country you will remember, Sir that I spoke to you concerning good Copper, for obtaining Gold of which I had heard much and I wanted to have got at some and I would have brought some with me, to make the Experiment, of that I could do it two days longer, for obtaining it, as I found it was rather scarce to such for the same, contrary to my expectation. The second was on account of the Copper Clippings and the Black Copper or crude Copper, belonging to the Mint, of which I made mention to you some time before, likewise to see whether there was a possibility to bring that Copper into fine Copper again.

It is for Copper in the Mint again, a new found can be done if the parties who can perform the business can agree with the Director of the Mint.

Thirdly the Rollers in the Mint began to be very defective and none can be obtained without Drops or Copper Moulds. This Sir is not only a difficult piece of Work, to cast, but requires nicety to fit with, and power of Action for finishing the Moulds with. Thus Sir I had laid out for my business for the

that to perform these various things might be obtained  
without much difficulty, and have found that all these  
things are to be obtained altho not without some diffi-  
culty, but not so much as expected. Any further par-  
ticular information on these subjects, I am ready to com-  
municate to you verbally when ever you think proper.

As for the Horse I took out of the stable, I  
have been very much engaged in business, and  
as the Horse has been for some time under  
the Farmer's hands and the Farmer recommends  
to the Hostler, that a Ship of that kind, would be of  
service to the Horse, by being put to Pasture as soon as  
thought. (altho it being more expensive to me than  
going in the Stage) to take the Horse with me in the  
country, and as I had very little more business for  
the Horse when I was at the place of business, I thought  
I could have Pasture there for the time I could stay,  
which I did, and the Horse is much recovered by that  
means. Nevertheless I should not have done so  
without leave first obtained from you. I am certain  
you will not consider this as done to benefit myself, but  
as you are well acquainted that a Horse should  
take a trip of 70 Miles, and then let the Horse stand  
stable at a Farmer's Pasture, which is more to my  
benefit than to the Horse's.

I am Sir with due respects your

Humble Servant

JOHN P. P. D. D. by the Grace of God, in good Order and well-conditioned, by the Governor and  
 Commanders of the Ship, a Master in England, for the purpose of  
 carrying on the said Ship, called the *James Hughes*,  
 and now lying at Anchor in the Port of *Philadelphia*,  
 and by God's Grace bound for *Philadelphia*  
 to pay,  
*Half One Cask of Copper Nailing*  
*Two Tons*  
 being marked and numbered as in the Margin, and are to be delivered in the like good Order and well-conditioned  
 at the aforesaid Port of *Philadelphia* (the Danger of the Seas only excepted)  
 unto *James Hughes*  
 for the said Goods *Twenty Four Casks* or to the Agents, as or they paying Freight  
 with Primage and Average as allowed. In Witness whereof the Master or Purser of the said Ship hath affixed  
 to these Bills of Lading, all of this Tenor and Date; the one of which Bills being accomplished, the others  
 to stand void. And so God send the good Ship to her desired Port in Safety. Amen.  
 Dated in *London* 11 July 1796  
*James Hughes*

My dear Sir,

I have the pleasure to receive your letter of the 14th inst. in relation to the proposed purchase of the land for the purpose of erecting a building for the use of the Board of Education. I have the honor to acknowledge the receipt of your letter of the 14th inst. and in reply to inform you that the Board of Education have no objection to the purchase of the land for the purpose of erecting a building for the use of the Board of Education. I have the honor to acknowledge the receipt of your letter of the 14th inst. and in reply to inform you that the Board of Education have no objection to the purchase of the land for the purpose of erecting a building for the use of the Board of Education.

I am, Sir, very respectfully,  
Your obedient servant,

Wm. L. Garrison  
Secretary of the Society for  
Abolishing the Slave Trade

Minst of the United States  
Chief Coiners Office June 30. 1796

I Certify that I have in my hands in Standard  
Silver Three hundred and twenty one ounces  
Standard Fine weight

Or 321.19 out

Henry Voigt Chief Coiner

Minst of the United States  
Chief Coiners Office June 30. 1790

I Certify that I have in my hands in Standard  
Gold Twenty two ounces ten pennyweight  
Or 22.10 out

Henry Voigt Chief Coiner

Recd 22 July 1796 of Oliver Wendell Esq. Vice  
President of the United States in the hands of John  
Carrington Esq. the sum of £1000 Sterling & fifty  
Pence being Money of Great Britain in payment  
of a Sum of £1000 Sterling by Order of the  
said Oliver Wendell in the Name of Capt. Hughes for  
Philadelphia for which said sum of Money I  
have this Day signed authentic Receipts all of the  
same Tenor of Date for Receipt by the said  
Company of Oliver Wendell in England  
11250.  Wm. Garrison Esq.

Set 1 pair of sort  
N<sup>o</sup> 1 Must be as hard as possible finely  
polished and truly round  
N<sup>o</sup> 2. As far as nothing, and if they can  
be cast in clay of a good hardness they  
will do as well as if cast in a wheel mould  
but the face of the rollers must be round  
and smooth

The measure is when finished  
N<sup>o</sup> 1 The roller 10 inches  $6\frac{1}{2}$  Diameter the flange  $7\frac{1}{2}$   
 $4\frac{3}{4}$  Diameter the square  $3\frac{1}{2}$  long  $2\frac{1}{2}$  square  
N<sup>o</sup> 2<sup>a</sup> The roller 9 inches long, 11 inches  $6\frac{1}{2}$  in Diameter  
when finished by the head,  $5\frac{1}{2}$  long  $4\frac{1}{2}$  inches in  
Diameter, but then is no occasion for turning the part  
round, but the shoulder ought to be turned quite  
round (B) the neck flange  $2\frac{1}{2}$  long  $2\frac{1}{2}$  square  
Diameter when finished  
(D) the square  $4\frac{1}{2}$  long  $2\frac{1}{2}$  square  
(E) the outer flange  $3\frac{1}{2}$  long  $3\frac{1}{2}$  in Diameter

Statement of the Standard Weight of Silver Bullion (calculated at 2 parts fine to one part alloy). Deposited at the Mint of the United States by John Vaughan previous to the appointment of the present assayer, when the calculations of the Purity of Bullion were regulated according to the Legal Standard.

When deposited	In what name deposited	Remarks	Standard weight 10 lb fine to 1 lb alloy
May 1. 7	John Vaughan		
May 30. 10	Do		95796. 5
June 10. 11	Do		7206. "
13. 13	Do		11399. 13
July 9. 14	Do		12782. 7
15 & 17. 15	Do	worked by the Com. who delivered to Mint.	2966. 14
			31014. 3

Sept 21-22 25. Bank of the United States. Am. Deposits. 51902. 7.  
Nov 21. 21 John Vaughan 719. -

(9 parts fine to 1 alloy) Standard 214781. 11  
From which the Mint deduct 12 alloy 211178. 3  
which leaves Fine Silver 193,303. 8

But 193,303. 8 fine Silver at the rate established by law of 1785 fine to alloy makes the amount of Standard Silver 216602. 17  
which leaves 211,781. 11

Balance to the prejudice of the Depositor of 1892. 6 Equal to  
Mint of U.S. to John Van Vleet for the above value of Dollars 2102. 60

Philadelphia 2d Mar. 1797  
J. Vaughan

A fragment of copper plate from the Mint of U. States at sundry times 1822
